## Media Release

### A 330 MW unit at Adani Power's Mundra plant creates a new national record by running continuously for 600 days

#### Editor's Synopsis

- Unit 4 at Mundra power plant creates national record by running continuously for 600 days
- NTPC's Vindhyachal unit had run for 559 days previously
- The Unit 4 generated 4142.56 units of electricity during these 600 days
- Mundra power plant is the world's largest private thermal power plant

Ahmedabad, February 28, 2017: Adani Power Limited, part of the Adani Group, a globally integrated infrastructure player, today, said that a 330 megawatt (MW) unit 4 at 4,620 MW Mundra thermal power plant has created a national record by running continuously for 600 days and generated 4142.56 units of electricity.

According to industry data, a unit at NTPC Ltd's Vindhyachal power plant ran for 559 days previously.

As we go to press, the unit is still operational and continues to create a new generation record.

"This is a very proud and momentous occasion for everyone at Adani Power. The continuous operations of the thermal unit without any interruption for such a long time is a huge feat considering the complexity of technology and scale of operations involved in it. This goes out to reflect our commitment towards nation building by providing quality uninterrupted power supply. Given the performance track record, we are confident of achieving many such accomplishments in the coming future." said Mr. Gautam Adani, Chairman, Adani Group.

"A comprehensive Operational Excellence and Maintenance Program has been institutionalized at all our plants to improve availability and reliability of the units and this has resulted in the uninterrupted operation of Unit 4 for 600 days. Strict adherence to Standard Operating Procedures, systematic skill development of operations team through training, knowledge sharing and implementation of best in class maintenance processes and technology were the key factors which have resulted in this achievement," said Mr. Vneet Jaain, CEO, Adani Power.

The Mundra power plant operates nine units out of which five are supercritical units of 660 MW each and four are sub-critical units of 330 MW each taking the total generation of the power plant to 4620 MW.

### About Adani Group

The Adani Group is one of India's leading business houses with revenue of over \$12 billion.

Founded in 1988, Adani has grown to become a global integrated infrastructure player with businesses in key industry verticals - resources, logistics, energy and agro. The integrated model is well adapted to the infrastructure challenges of the emerging economies.

Adani Group's growth and vision has always been in sync with the idea of Nation Building. We live in the same communities where we operate and take our responsibility towards contributing to the betterment of the society very seriously. Through Adani Foundation, we ensure development and progress is sustainable and inclusive; not just for the people living in these areas, but the environment on the whole. At Adani, we believe in delivering benefits that transcend our immediate stakeholders.

Resources means obtaining Coal from mines and trading;

Adani is developing and operating mines in India, Indonesia and Australia as well as importing and trading coal from many other countries. Currently, we are the largest coal importers in India. We also have extensive interests in oil and gas exploration. Our coal extraction has increased to 11 MMT in 2016 and we aim to achieve coal trading and

mining volume of 200 MMT per annum by 2020, thereby making Adani one of the largest mining groups in the world.

Logistics denotes a large network of Ports, Special Economic Zone (SEZ) and Multi-Modal Logistics - Railways and Ships.

Adani owns and operates eight ports and terminals in India. These are at Mundra, Dahej, Kandla and Hazira in Gujarat, Dhamra in Orissa, Mormugao in Goa, Visakhapatnam in Andhra Pradesh and Katupalli in Chennai. Mundra Port, which is the largest port in India, benefits from a deep draft, first-class infrastructure and SEZ status. Cargo volumes touched 152 MMT mark in 2016. Adani is developing a terminal at Ennore in Tamil Nadu and Vizhinjam.

Energy involves Power generation, Renewables, transmission and Gas distribution.

Adani Power Ltd is the largest private thermal power producer in India with an installed capacity of 10,480 MW. Our four power projects are spread out across the states of Gujarat, Maharashtra, Karnataka and Rajasthan.

Adani Transmission Ltd is one of the largest private sector transmission companies in India with more than 7,000 circuit kms of transmission lines across Western, Northern and Central regions of India. The company was listed last year on the National Stock Exchange and Bombay Stock Exchange as a separate entity.

We also provide a range of reliable and environment friendly energy solutions, in the form of CNG and PNG. The above-mentioned installed capacity of Adani Power also includes a 40 MW solar plant at Bitta, Gujarat. Further, the company has operational 648 MW solar power project at Ramanathapuram district in Tamil Nadu, a 100 MW solar power plant in Bhatinda, Punjab and has also recently signed a JV with the Rajasthan government to develop the country's largest solar park in the state with 10,000 MW capacity.

Agro includes modernizing the agriculture sector and bringing food security with self-reliance through its three main agro verticals – Agri-Business, Agri Logistics and Fresh Farm Products.
