Adani Power Limited

Media Statement

Today, during start-up, after two day's shut down, in one of the nine units of Mundra Power plant, hot water splashed from the vent of a flash tank. During the start up some steam is normally allowed to vent.

During this process 21 workmen working in the said unit have been affected by the splashing of hot water, the unit has been shut down. Eight workmen with nominal injuries have been provided first aid and released; balance 13 workmen who have suffered various levels of injuries are being provided high quality medical care by moving them to premier super-speciality hospitals in Ahmedabad which have capabilities to take best care of the workmen affected.

The company has constituted a multi-disciplinary, cross-functional team of experts to investigate the incident and submit report within 10 days.
